Thank you for your quick response and your approval. It is greatly appreciated.

By the way, I'd like for you to know that I really enjoyed your book. It was concise, to the point, easy reading, and very relevant to the field of Educational Technology.

Keep up the great work!

Laura, thank you for emailing. I certainly am in favor of allowing your use of the material in "Cyber Law" for the use you describe below. I hope Sage/Corwin concurs. Best of luck to you with your Professional Development class!

Aimee

Subject: Requesting authorization to Use

In order to stay in compliance, I am writing to request the use of specific information found in the book titled: Cyber Law: Maximizing Safety and Minimizing Risk in Classrooms.

I purchased the book as a required reading in a graduate course I am currently taking, and would really like to use and reference some of the information found in chapter 6 of this book within the training material I am creating for a professional development class. As such, I am writing in hopes of obtaining permission to do so.

The nature of the use:

I am an Technology Integration Facilitator in San Antonio ISD and am currently trying to create a Professional Development class on Copyright and Creative Commons, and the information found in Chapter 6 of this book has some wonderful information that I would very much like to use and reference in my course material.

Please know the purpose of my material will be nonprofit, teaching, and noncommercial.

Thanking you in advance for your prompt attention to this matter.

If you have any questions, please feel free to contact me at the listed below.
